

**Reports to:** Development Supervisor

**Industry:** Software, Transportation

**Employment Type:** Permanent, Full-Time

**Compensation:** Salary dependent on experience, benefits included

**Anticipated Start Date:** Immediately

Tailwind Management Systems provides enterprise solutions for the Transportation Industry with a focus on workflow efficiency, data exchange and analysis. We've been in business since 2002, and our software product is one of the best in the marketplace. Over 200 companies throughout the U.S.A, Mexico and Canada use our software to run and manage their business.

But that's not nearly enough...

We've got some big goals, you see. "Eyes bigger than our stomach", as the saying goes. So, we need another stomach... and hopefully that's where you come in.

An exceptionally talented Developer who wants to help us drive new and innovative features into a opportunity-filled market.

The role includes:

- Building out our next set of groundbreaking features
- Brainstorming and collaborating with our highly motivated team
- Working directly with senior management
- Changing an industry
- Loving what you do

What we have on offer is an environment of daily intellectual challenges, rewarding work, and an opportunity to make a big impact.

Here's what you need:

- Amazing and ruthless programming abilities (VB.NET, MS SQL, ASP.NET, PHP... VB6 would be a killer asset)
- A passion for learning
- A heroic work ethic
- Easy demeanour, both in and out of the office
- Impossibly high standards
- A resume with **salary expectations** and available start date submitted to [sharon@tailwindsys.com](mailto:sharon@tailwindsys.com)
